### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steven J. Solomon (Reg. No. 48,719) on February 3, 2004.

The application has been amended as follows:

In claim 3, line 2, delete "or 2".

In claim 18, line 2, change "3" to --51--.

Add the following new claims:

Claim 51: A method according to claim 2, wherein said pressing comprises the step of roll bonding to form a roll bonded composite.

Claim 52: A method according to claim 1, wherein the pressing consists of the step or roll bonding said cladding to said base metal alloy to thereby metallurgically bond said cladding to said base metal alloy.

Claim 53: A method according to claim 52, further comprising the step of cold rolling said roll bonded composite to final gauge.

The following is an examiner's statement of the interview: It was agreed to amend the claims according to the proposed amendment received by fax on 2/3/04 (attached to the

Art Unit: 1775

interview summary record). The amendment primarily clarifies the antecedent basis for the separate copper/aluminum and copper/nickel embodiments originally both depending from claim 3 and also clears up multiple dependency issues.
